Vol. 41, No. 4

2001/2002 AIR QUALITY MANAGEMENT CONFERENCE

**January 11, 2002
8:00 a.m. - 5:30 p.m.
Willowbrook Holiday Inn**

The Lake Michigan States Section of the Air & Waste Management Association is pleased to once again sponsor a conference on air quality management issues affecting the Lake Michigan States. This one-day conference will cover a variety of topics of both regional and national interest. **Issues to be discussed will include: state and federal regulatory initiatives, prospects for re-designation of the Chicago area as attainment for ozone, New Source Review and its enforcement implications, environmental management issues for compliance certification, and an air toxics update.**

The topics will be addressed by senior managers and staff from U.S. EPA, state agencies, industry, academia, law firms, and environmental consulting and engineering.

Companies that supply products and services for environmental management will have exhibits on display at the conference. These exhibitors will sponsor the conference's refreshment breaks and closing reception. For information on exhibiting, contact Robin Pelsis at (847) 202-0418 or lm_awma@ameritech.net.

CLEAN AIR ACT PRIMER January 10, 2002 7:00-9:00 p.m.

Environmental professionals working in the air quality area should have an understanding of what the Clean Air Act is and what it entails. This primer will provide background information and review to environmental professionals looking for an update on basic air quality management issues. **The course will provide an overview all of the Clean Air Act, with special attention to some of the more prominent sections including Title III - Air Toxics and Title V - Clean Air Act Permitting.**

Handouts distributed from the course will cover the Clean Air Act and its details, Air Toxics and other valuable information that can serve the professional as a reference for years to come.

The Primer course will be held at the **Willowbrook Holiday Inn**. Course Instructors are: Paul Farber, PE DEE, an environmental consultant with over 25 years experience in air pollution and air pollution control and an International Director of the Air and Wastes Management Association; and Dr. Dale Kalina, Director of EHS Regulatory Affairs and Due Diligence of R. R. Donnelley and Sons Co. one of the largest printing companies in the world.

LM-AWMA Names New Education Coordinator

Mr. Mark Roach of Clean Air Engineering in Palatine, IL has accepted the position of Education Coordinator for the Lake Michigan State Section AWMA. For information about scheduling a AWMA Environmental Education Program for Teachers in your area or to volunteer to be a trainer contact Mr. Roach at 847/991-6200, ext. 2099. Mr. Roach succeeds Mr. Jim Haried of Earth Tech.

THURSDAY, JANUARY 10, 2002

7:00 p.m. Clean Air Act Primer

Dale Kalina
Director of EHS Regulatory Affairs
and and Due Diligence
R. R. Donnelley & Sons Company

Paul Farber
Project Associate
Sargent & Lundy

FRIDAY, JANUARY 11, 2002

7:30 - 8:00 a.m. Registration and Continental Breakfast

8:00 a.m. Welcome

8:15 State Program Initiatives — Lake Michigan States Air Directors Forum

David Kolaz
Bureau Chief, Bureau of Air
Illinois EPA

Janet McCabe
Assistant Commissioner
Indiana DEM

Larry Bruss
Chief, Ozone Section
Wisconsin DNR

9:30 Break sponsored by Exhibitors

9:45 Issues for Re-designation of the Chicago Ozone Nonattainment Area

Stephen H. Rothblatt
Branch Chief, Air Programs
U.S. EPA, Region V

Janet McCabe
Assistant Commissioner
Indiana DEM

Alan Jirik
Manager, Env. Affairs
Corn Products

Dennis Lawler
Mgr., Div. of Air Pollution Control,
Bureau of Air, Illinois EPA

Larry Bruss
Chief, Ozone Section
Wisconsin DNR

Brian Urbaszewski
Dir. of Env. Health Programs
American Lung Assoc. of Metro. Chgo.

11:45 Lunch with Guest Speaker

Stephen H. Rothblatt
Branch Chief, Air Programs Branch, U.S. EPA, Region V

1:30 New Source Review

Bill Forcade
Partner
Jenner & Block

Bertram Frey
Acting Dir., Office of Reg. Council
U.S. EPA, Region V

John Iwanski
Regional Director
Trinity Consultants

2:45 Compliance: Title V Certifications and Pro-active Environmental Management

James Harrington
Partner
Ross & Hardies

Henry Goyette
Principal
Environmental Resources Mgmt.

Ron Huijsman
Principal Consultant
URS Corporation

4:00 Break sponsored by Exhibitors

4:15 Update on Air Toxics Issues

**Case-by-case MACT/CAA
Section 112(j)**
Genevieve Damico
U.S. EPA, Region V

Residual Risk
George Bollweg
U.S. EPA, Region V

**Persistent, Bioaccumulative,
Toxic Reporting**
Thelma Codina
U.S. EPA, Region V

5:30 Closing Reception

Cocktails and Refreshments sponsored by the Conference Exhibitors

Local News and Information

IEPA Pollution Prevention Internship Program Applications Being Accepted Applications are due January 31st, 2002

Each year, Illinois EPA's Office of Pollution Prevention recruits upper-level university students to work on pollution prevention (P2) projects during the summer. While students have been placed primarily at manufacturing facilities, they have also worked at small business development centers, trade associations, local government facilities, environmental groups and military installations. The purpose of the program is to help facilities identify, research and pilot P2 technologies and practices.

IEPA is looking for organizations to host an intern. To volunteer your organization as a host see the online application form at <http://www.epa.state.il.us/p2/internships/> or contact Richard Reese at IEPA for more information.

Each student selected for the program is required to attend an initial P2 training program in Springfield. The student will spend the remainder of the 12-week summer session working as a temporary full-time employee at the sponsoring facility. Students typically have backgrounds in engineering, environmental management, chemistry, or occupational health and safety.

The program has helped Illinois businesses save millions of dollars and reduce environmental releases by over 200,000 pounds.

Please Note: The deadline for both the student and host facility to apply each year is January 31st. For more information on the Pollution Prevention Internship Program contact:
